## Secure & Trusted Video Interviews & Meetings

Would you have face-to-face meetings without knowing who was listening?

Would you make entering a formal meeting room difficult for the attendees?

Would you want attendees of your meeting wearing masks or putting up backdrops?

Would you send recordings and minutes to an unknown location, not knowing who could access it?

### Treat your online formal interviews and meetings...well, formally.

Cyber security assured, Mea: Connexus uses **256-bit AES Encryption** for your data during the interview or meeting, as well as when the content is stored. Using **Blockchain technology** to ensure the content of your interviews or meetings **cannot be changed** without you knowing, Mea: Connexus is a video interview and meeting solution that is **secure and trusted**.

It provides **mandatory recording** from start to end of every interview and secure sharing of all meeting content including the video and any shared media through group collaboration. Every interview has **time-coded and named transcription** detailing exactly what was said, at what time and by whom. With no built in backdrops, filters and avatars, you can **keep online meetings formal** and be sure of who you are meeting with.

## Secure & Trusted Video Interviews & Meetings

### Why Use Mea: Connexus?

#### 01 Reduced Time & Cost

With 1 TB (approx. 1,000 hour of interview) of secure cloud storage included, all meeting content can be stored safely and cost effectively. Save time and money in minute taking by providing auto transcription.

#### 02 Increased Confidence & Content Protection

Using Blockchain technology, your meeting content cannot be changed or altered without you knowing it. So, if someone later challenges what was said, you can be safe in the knowledge you will always be able to prove the facts.

#### 03 Reduced Carbon Footprint

As you move towards a more environmentally sustainable way of working, do it safe in the knowledge that your data, security and privacy are not compromised.

#### 04 Reduced Frustration, Increased Satisfaction

No need to download yet another app! With the ability to use any device with a camera, microphone and internet connection, you and your guests can interview and meet at a time & location that suits them.

#### 05 Increased Collaboration

You can easily share the content, bookmark important points, comment on key elements and ask other people's opinions on the content without downloading a thing. Although if you do need to download the meeting, you can do that, too.

#### 06 Increased Efficiency

No time or resource to take minutes? No budget for transcribers? Fed up with unproductive travel time to meetings? Using Mea: Connexus to carry out secure meetings online, you are freed up to focus on the things that matter most.
