More effective use
of investigators time

More efficient
investigative process

Reduced cost of
operations and
investigations

Increased confidence
in evidential material

Quick and low-cost
to implement

Easy to use on
any device

Mea: Connexus provides us with an immutable audit trail of case conference calls which can be referred to if issues, complaints, or challenges to the content of those calls arise. Importantly it is extremely easy for participants to connect from any platform and has provided us with great savings in time and resource and helps us to provide a quick and efficient service.

The quality of video and audio provided by the platform has meant that formal interviews and meetings can reliably be made remotely, safe in the knowledge that the content can always be trusted.

Former Senior Detective at New Scotland Yard
and Chair of Trustees for Inside Justice
